

# OMOP CDM Master Data Dictionary (Unique Columns)

## Identifiers

| Column              | Description                                                                                                  |
|---------------------|--------------------------------------------------------------------------------------------------------------|
| PERSON_ID           | Unique identifier for an individual patient across the OMOP database. Used to link all patient records.      |
| PROVIDER_ID         | Identifier of the healthcare provider responsible for the encounter, prescription, procedure or measurement. |
| CARE_SITE_ID        | Identifier of the healthcare facility, clinic or department where care was delivered.                        |
| VISIT_OCCURRENCE_ID | Identifier of a healthcare visit. Used to associate records occurring during the same encounter.             |
| VISIT_DETAIL_ID     | Identifier for a more detailed subdivision of a visit (e.g., ICU stay, ward transfer).                       |
| LOCATION_ID         | Identifier of the patient's geographical location.                                                           |

## Primary Keys

| Column                  | Description                                                    |
|-------------------------|----------------------------------------------------------------|
| DRUG_EXPOSURE_ID        | Unique identifier for each drug exposure record.               |
| DRUG_ERA_ID             | Unique identifier for each continuous period of drug exposure. |
| MEASUREMENT_ID          | Unique identifier for each laboratory or clinical measurement. |
| OBSERVATION_ID          | Unique identifier for each observation record.                 |
| OBSERVATION_PERIOD_ID   | Unique identifier for each observation period.                 |
| PROCEDURE_OCCURRENCE_ID | Unique identifier for each recorded procedure.                 |
| RELATIONSHIP_ID         | Unique identifier for a vocabulary relationship.               |
| VOCABULARY_ID           | Unique identifier for a clinical vocabulary.                   |

## Concept IDs

| Column               | Description                                     |
|----------------------|-------------------------------------------------|
| GENDER_CONCEPT_ID    | Standard concept representing patient's gender. |
| RACE_CONCEPT_ID      | Standard concept representing race.             |
| ETHNICITY_CONCEPT_ID | Standard concept representing ethnicity.        |
| DRUG_CONCEPT_ID      | Standard medication concept.                    |
| DRUG_TYPE_CONCEPT_ID | Source/type of drug record.                     |
| ROUTE_CONCEPT_ID     | Drug administration route.                      |

|                                    |                                             |
|------------------------------------|---------------------------------------------|
| <b>MEASUREMENT_CONCEPT_ID</b>      | Laboratory or clinical measurement concept. |
| <b>MEASUREMENT_TYPE_CONCEPT_ID</b> | Source/type of measurement.                 |
| <b>OPERATOR_CONCEPT_ID</b>         | Comparison operator for measurement.        |
| <b>VALUE_AS_CONCEPT_ID</b>         | Coded result concept.                       |
| <b>UNIT_CONCEPT_ID</b>             | Standard measurement unit.                  |
| <b>OBSERVATION_CONCEPT_ID</b>      | Observation concept.                        |
| <b>OBSERVATION_TYPE_CONCEPT_ID</b> | Observation source/type.                    |
| <b>QUALIFIER_CONCEPT_ID</b>        | Observation qualifier.                      |
| <b>PROCEDURE_CONCEPT_ID</b>        | Procedure concept.                          |
| <b>PROCEDURE_TYPE_CONCEPT_ID</b>   | Procedure source/type.                      |
| <b>MODIFIER_CONCEPT_ID</b>         | Procedure modifier.                         |
| <b>VISIT_CONCEPT_ID</b>            | Visit type.                                 |
| <b>VISIT_TYPE_CONCEPT_ID</b>       | Visit source/type.                          |
| <b>ADMITTING_SOURCE_CONCEPT_ID</b> | Admission source.                           |
| <b>DISCHARGE_TO_CONCEPT_ID</b>     | Discharge destination.                      |
| <b>PERIOD_TYPE_CONCEPT_ID</b>      | Observation period type.                    |
| <b>RELATIONSHIP_CONCEPT_ID</b>     | Vocabulary relationship concept.            |

## Date & Time

| Column                              | Description                 |
|-------------------------------------|-----------------------------|
| <b>BIRTH_DATETIME</b>               | Exact birth date/time.      |
| <b>YEAR_OF_BIRTH</b>                | Birth year.                 |
| <b>MONTH_OF_BIRTH</b>               | Birth month.                |
| <b>DAY_OF_BIRTH</b>                 | Birth day.                  |
| <b>DRUG_EXPOSURE_START_DATE</b>     | Medication start date.      |
| <b>DRUG_EXPOSURE_START_DATETIME</b> | Medication start datetime.  |
| <b>DRUG_EXPOSURE_END_DATE</b>       | Medication end date.        |
| <b>DRUG_EXPOSURE_END_DATETIME</b>   | Medication end datetime.    |
| <b>VERBATIM_END_DATE</b>            | Original recorded end date. |
| <b>DRUG_ERA_START_DATE</b>          | Drug era start.             |
| <b>DRUG_ERA_END_DATE</b>            | Drug era end.               |

|                                      |                           |
|--------------------------------------|---------------------------|
| <b>MEASUREMENT_DATE</b>              | Measurement date.         |
| <b>MEASUREMENT_DATETIME</b>          | Measurement datetime.     |
| <b>MEASUREMENT_TIME</b>              | Measurement time.         |
| <b>OBSERVATION_DATE</b>              | Observation date.         |
| <b>OBSERVATION_DATETIME</b>          | Observation datetime.     |
| <b>PROCEDURE_DATE</b>                | Procedure date.           |
| <b>PROCEDURE_DATETIME</b>            | Procedure datetime.       |
| <b>VISIT_START_DATE</b>              | Visit start date.         |
| <b>VISIT_START_DATETIME</b>          | Visit start datetime.     |
| <b>VISIT_END_DATE</b>                | Visit end date.           |
| <b>VISIT_END_DATETIME</b>            | Visit end datetime.       |
| <b>OBSERVATION_PERIOD_START_DATE</b> | Observation period start. |
| <b>OBSERVATION_PERIOD_END_DATE</b>   | Observation period end.   |

## Numeric Values

| Column                     | Description                          |
|----------------------------|--------------------------------------|
| <b>VALUE_AS_NUMBER</b>     | Numeric measurement result.          |
| <b>RANGE_LOW</b>           | Lower reference limit.               |
| <b>RANGE_HIGH</b>          | Upper reference limit.               |
| <b>QUANTITY</b>            | Quantity prescribed/performed.       |
| <b>DAYS_SUPPLY</b>         | Days medication supplied.            |
| <b>REFILLS</b>             | Prescription refills.                |
| <b>DRUG_EXPOSURE_COUNT</b> | Number of exposures in drug era.     |
| <b>GAP_DAYS</b>            | Allowable gap between prescriptions. |

## Source Values

| Column                          | Description                  |
|---------------------------------|------------------------------|
| <b>PERSON_SOURCE_VALUE</b>      | Original patient identifier. |
| <b>GENDER_SOURCE_VALUE</b>      | Original gender.             |
| <b>GENDER_SOURCE_CONCEPT_ID</b> | Source gender concept.       |
| <b>RACE_SOURCE_VALUE</b>        | Original race.               |
| <b>RACE_SOURCE_CONCEPT_ID</b>   | Source race concept.         |
| <b>ETHNICITY_SOURCE_VALUE</b>   | Original ethnicity.          |

|                                      |                                 |
|--------------------------------------|---------------------------------|
| <b>ETHNICITY_SOURCE_CONCEPT_ID</b>   | Source ethnicity concept.       |
| <b>DRUG_SOURCE_VALUE</b>             | Original medication.            |
| <b>DRUG_SOURCE_CONCEPT_ID</b>        | Source medication concept.      |
| <b>ROUTE_SOURCE_VALUE</b>            | Original administration route.  |
| <b>DOSE_UNIT_SOURCE_VALUE</b>        | Original dose unit.             |
| <b>MEASUREMENT_SOURCE_VALUE</b>      | Original measurement.           |
| <b>MEASUREMENT_SOURCE_CONCEPT_ID</b> | Source measurement concept.     |
| <b>UNIT_SOURCE_VALUE</b>             | Original unit.                  |
| <b>VALUE_SOURCE_VALUE</b>            | Original measurement result.    |
| <b>OBSERVATION_SOURCE_VALUE</b>      | Original observation.           |
| <b>OBSERVATION_SOURCE_CONCEPT_ID</b> | Source observation concept.     |
| <b>QUALIFIER_SOURCE_VALUE</b>        | Original qualifier.             |
| <b>PROCEDURE_SOURCE_VALUE</b>        | Original procedure.             |
| <b>PROCEDURE_SOURCE_CONCEPT_ID</b>   | Source procedure concept.       |
| <b>MODIFIER_SOURCE_VALUE</b>         | Original procedure modifier.    |
| <b>VISIT_SOURCE_VALUE</b>            | Original visit.                 |
| <b>VISIT_SOURCE_CONCEPT_ID</b>       | Source visit concept.           |
| <b>ADMITTING_SOURCE_VALUE</b>        | Original admission source.      |
| <b>DISCHARGE_TO_SOURCE_VALUE</b>     | Original discharge destination. |

## Text Fields

| Column                 | Description                |
|------------------------|----------------------------|
| <b>STOP_REASON</b>     | Reason medication stopped. |
| <b>SIG</b>             | Prescribing instructions.  |
| <b>LOT_NUMBER</b>      | Medication lot number.     |
| <b>VALUE_AS_STRING</b> | Text observation result.   |

## Vocabulary

| Column                      | Description           |
|-----------------------------|-----------------------|
| <b>VOCABULARY_NAME</b>      | Vocabulary name.      |
| <b>VOCABULARY_REFERENCE</b> | Vocabulary reference. |
| <b>VOCABULARY_VERSION</b>   | Vocabulary version.   |

|                       |                                      |
|-----------------------|--------------------------------------|
| VOCABULARY_CONCEPT_ID | Concept representing the vocabulary. |
|-----------------------|--------------------------------------|

## Relationship

| Column                        | Description                            |
|-------------------------------|----------------------------------------|
| RELATIONSHIP_NAME             | Description of relationship.           |
| IS_HIERARCHICAL               | Whether relationship is hierarchical.  |
| DEFINES_ANCESTRY              | Whether relationship defines ancestry. |
| REVERSE_RELATIONSHIP_ID       | Inverse relationship identifier.       |
| PRECEDING_VISIT_OCCURRENCE_ID | Previous visit identifier.             |
